

## STREET CARS HIT HEAD ON; WOMAN HURT

Mrs. E. H. Rinehart, of 3121 Aurora street, was injured in her head and other passengers on Fort Bliss street cars were shaken up Monday evening when the two cars collided in the Opera street tunnel. Both cars were running at a moderate speed.

According to officials of the El Paso Electric Railway company, the accident was due to the failure of a motorman to observe the signals of the approaching outboard car. The front vestibule of both cars were smashed. J. L. Mader, motorman of the inboard car, was not injured although he remained in the vestibule. Motorman C. Weekly, jumped from his car to time to avoid injury.

There is an abrupt curve in the tunnel and automatic signals are installed to prevent such accidents. Passengers on the car, however, are said to have been able to see the coming crash and to prepare for the shock.

Street car officials said Tuesday that no other injuries had been reported than the slight injury of Mrs. Rinehart. Her condition is not serious.

## CULBERTSON TELLS HOW TO SELL BY MAIL

Selling goods 10,000 miles away is just as easy as selling goods to your neighbors, if the proper sales methods are used, J. G. Culbertson, Republican candidate for governor of Texas, told the Salesmanship club at its weekly luncheon Tuesday at the chamber of commerce.

Mr. Culbertson predicted that more and more selling would be done by mail, if transportation costs for traveling were continued to soar. A letter, Jack Higgy, outdoor sign man, was the first speaker at the luncheon. J. C. Roblin demonstrated how insurance is sold. C. E. Cannon was the "customer."

Mrs. John Fleming, "sold" an automobile to Earl Hardage.

Delegates are to be sent by El Paso Rotary and the Automobile club to the annual convention of the Quaker Trails association, which meets October 1, in Pittsburg, Kas. A letter has been received by Miss Bessie Gilder, secretary of the Automobile club and assistant secretary of Rotary, authorizing the sending of delegates. C. M. Harvey has been named delegate for the Automobile club.

## Use it as a beautifier

### Explaining the moderate price

Users of Palmolive should know why it can be bought at the price of other soaps.

Simply because Palmolive is so popular that it forces production in enormous quantities. The Palmolive factory works day and night, ingredients are purchased in gigantic volume. The result is a moderate price.

Palmolive is sold by all dealers and supplied in guest-room size by America's most popular hotels.

SOAP and water has a most important mission in preserving the beauty and fineness of the complexion. It removes the coating of dirt, perspiration and excess oil secretions which, with all traces of rouge and powder, must be washed away every day.

Neglect this daily cleansing and you invite trouble. The tiny pores and minute glands which make up the surface of the skin quickly become clogged and irritated. This clogging, this irritation, causes enlargement. This is the reason so many skins are coarse. Then when the congested pores fill with dirt, blackheads result. Soon they inflame and disfiguring blotches follow.

Why it can't irritate. Because Palmolive contains Palm and Olive oils discovered 3,000 years ago in ancient Egypt. Cleopatra knew their value—they served her both as cleanser and cosmetic. To-day their scientific combination in Palmolive Soap achieves the final toilet luxury.

### Do your washing with Palmolive

Don't say soap doesn't agree with your skin but get a cake of Palmolive. Its pure, mild lather is so gentle in its action that it soothes while it cleanses.

If your complexion is excessively dry, apply Palmolive Cold Cream both before and after washing. This supplies the lacking natural oil and keeps it soft and smooth.

To let escape the fragrance from out a crystal bottle of Parfum Chantilly is to open up again visions of France's most glorious period—to set the fountains of Old Chantilly's gardens playing once more—to reawaken the myriads of sleeping flowers—to re-people the sparkling courts with king and courtesan and those fairest ladies, with whom the knowledge of perfumery was an art.

As though its formula were left us as a legacy by de Montespan or Antoinette—so truly does the sweetness of Parfum Chantilly breathe the atmosphere of romantic France!

## Now Brush Teeth

In the new way—Remove the film

All statements approved by authorities

Try this new way of teeth cleaning. The test is free. It has brought to millions whiter, safer teeth. Leading dentists everywhere advise it. See the results, then learn what they mean to you.

**What ruins teeth**  
Teeth are ruined by a film. You can feel it—that viscous coat. It clings to teeth, gets between the teeth and stays. And most tooth troubles are now traced to it.

**Now we combat it**  
Dental science has in late years found a way to fight film, day by day. High authorities have proved it by many careful tests. Millions of people have adopted it, largely by dental advice. To careful people it is bringing a new era in teeth cleaning.

These new methods are all embodied in a dentifrice called Pepsodent. And you are urged to prove it by a pleasant ten-day test.

**Five important effects**  
Pepsodent has five effects, all of them essential to cleaner, safer teeth. One ingredient is pepsin. One multiplies the starch digestant in the saliva to combat starch deposits that cling. One multiplies the alkalinity of the saliva to neutralize mouth acids.

In two ways it attacks the films directly. Then it keeps the teeth so highly polished that film cannot easily cling.
